

Accreditation Performance Statement

From 1st July 2007, the ACHS Terms and Conditions includes the introduction of a policy regarding compulsory public disclosure of an individual organisation's accreditation results.

The ACHS strongly believes in the public availability of appropriate information resulting from accreditation surveys, and is actively encouraging all members to make this information available to interested parties, most notably consumers.

Name of member organisation:	Ashbrooke Cosmetic Surgery
Org Code :	12 00 45
Date :	25 March 2009

Organisation Comments

The Ashbrooke Cosmetic Surgery believes in providing our patients with a holistic approach towards the enhancement of their physical appearance through best practice techniques. We will always strive to give each patient an excellent level of care through a comprehensive risk management and quality improvement. At the same time we recognise the importance of the emotional and physical needs of our patients and will always strive to meet the challenge of providing the balance between these two aspects of their lives.

Accreditation with ACHS has assisted us tremendously in achieving the excellence in the holistic approach to our patient care. ACHS has also helped us improve and perform at a higher level than we would have achieved otherwise.

Survey Coordinator Comments

The ACHS notes that the Ashbrooke Cosmetic Surgery has moved premises since its last survey. Despite the difficulties such a move must have generated for the practice, it is pleasing to note that Ashbrooke has maintained its quality of service provision.
