

Accreditation Performance Statement

From 1st July 2007, the ACHS Terms and Conditions includes the introduction of a policy regarding compulsory public disclosure of an individual organisation's accreditation results.

The ACHS strongly believes in the public availability of appropriate information resulting from accreditation surveys, and is actively encouraging all members to make this information available to interested parties, most notably consumers.

“There is an excellent risk management policy dealing with clinical and non-clinical risks”

Survey Coordinator Comments

It is noted that despite the increasing clinical load being encompassed by the hospital, it has maintained its quality of care. It is also appreciated that the move to the new facility will overcome many of the limitations caused by the layout of the current facility.
